Your Training Professionals:

Cindy Brendel has been a Training Consultant and Master Trainer for such organizations as Edward Jones, LMI Aerospace Inc., and Ingersoll Rand for over 20 years. She has consulted on needs assessment, program design, program development, and program delivery. She holds a Masters Degree in Human Resource Development and a Master's Degree in Management & Leadership. Her area of expertise includes strategic management, change management, team leadership, coaching and counseling, facilitation and presentation skills, and communication for leaders. Her global experience encompasses working with leaders in the United States, Canada, Mexico, the United Kingdom, Ireland, and China. She is currently the President for the American Society of Training and Development St. Louis Metropolitan Chapter.

Kim Rochetti is a respected and accomplished Performance Excellence Leader with extensive Six Sigma, Lean, and Change Management expertise in manufacturing, healthcare, and administrative environments. Kim is known as an effective and credible leader able to build and motivate high performance teams that deliver optimal results. She is a Master Black Belt and certified ASQ Black Belt recognized for her skill and ability to achieve bottom line results. Kim was employed at Boeing Aerospace for 22 years in engineering and quality functions, with success in both the technical and management arenas. Kim transitioned her Lean-Six Sigma skills to healthcare and successfully deployed LSS to help streamline processes and improve patient care. She returned to manufacturing with Ingersoll-Rand to transform the administrative processes to World Class using LSS and change management tools. After providing over 1500 hours of training, completing countless projects, and mentoring associates at every level of the company in LSS, Kim has achieved recognized success with positive bottom-line results. Kim is passionate about LSS and has 10+ years experience deploying this initiative at four businesses. She has learned the critical success factors for optimum results.

Kim is currently Secretary for the ASQ – St. Louis Section. She has been nominated as the Chair-Elect for the 2010-2011 term.
